

The AIChE Netherlands / Belgium Section
is pleased to invite you to attend the Lecture Dinner Meeting

SUCCESSFUL OPERATION OF FIRST ALKYCLEAN® SOLID ACID ALKYLATION UNIT

by Maurice Korpelshoek, Technology Marketing Director, CB&I

Thursday, June 29, 2017 - Golden Tulip Hotel, Zoetermeer

Program

18.00 – 18.30	:	Registration & Cocktails
18.30 – 19.30	:	Lecture
19.30	:	Dinner

Summary

Alkylate product remains one of the most favored octane blending components in the refining industry. CB&I and Albemarle have developed and commercially proven a unique solid acid alkylation process, called AlkyClean®, which is the most environmentally advanced and safest processing option to produce alkylate, and an excellent alternative to retrofit existing HF alkylation units. After several years of process development and pilot plant testing, this novel alkylation process was licensed to Shandong Wonfull Petrochemical Group in China. This unique technology is the only demonstrated technology for solid acid alkylation. The results of more than a year of successful operation, together with application of this technology in existing refineries will be discussed.

Alkylate continues to be preferred gasoline blendstock for refiners.

First commercial demonstration of solid acid alkylation technology!

AlkyClean technology is innovative and proven solution for solid acid alkylate production.

Registration form

Yes, I would like to attend the Lecture Dinner Meeting with the subject: 'Successful operation of first AlkyClean® solid acid alkylation unit' on Thursday June 29th, 2017.

Company: _____

Name: _____

Job Title: _____

Email: _____

Diet: _____

Please send the invoice to:

Company: _____

Attn.: _____

Address: _____

City: _____

Reference: _____

Fees

Participant: 80 euro

Sponsor: 50 euro

Registration by mail: aiche@kbororganisatietalent.nl

A week before the start of the Lecture Dinner Meeting you will receive a confirmation with practical information and your invoice. Free cancellation is possible, when in writing, 24 hours prior to the event.
